BRIEF SUMMARY

As a skilled Software Developer, I create dynamic, responsive web and mobile applications using HTML, CSS, Bootstrap, and ReactJS for front-end development, and Flutter for mobile apps. I use Java, Hibernate, and MySQL on the back-end to build scalable systems. I am committed to delivering high-quality code and seamless user experiences.

- GSEB (Class X) | Percentage: **69.50**

SKILLS

Web Development | Python | JavaScript | Java | Flutter | MongoDB | HTML5 | CSS3 | MySQL | Bootstrap | Web API | PHP | Git | ReactJS | Data Structure | Power BI

WORK EXPERIENCE

Prodigy InfoTech | Internship

Jun'24 - Present

- A one-month internship focused on developing projects using HTML, CSS, JavaScript, Bootstrap, and React.js. Gained hands-on experience in front-end development, project planning, and collaboration within a task-based environment.

PROJECTS

Personal Portfolio Website: <https://patel-deep-portfolio.netlify.app>

- Welcome to my portfolio, a showcase of my projects and skills. This site reflects my passion for modern web development and design, built with the latest web technologies including Tailwind CSS, SCSS, Bootstrap, JavaScript, and HTML. Explore my work and let's connect.

Clothing-Store Website: <https://perfect-threads-by-pateldeep.netlify.app>

- I create clean, aesthetically pleasing layouts featuring high-quality product images using HTML and CSS. Ensuring that the website's design enhances usability and appeals to the target audience.

Amazon Clone Website: <https://deep0907-deep.github.io/Amazon-clone>

- Developed a responsive e-commerce website, featuring a dynamic home page, product catalog, interactive shopping cart, and user-friendly interface. Implemented advanced CSS for modern design aesthetics and improved user experience.

ASSESSMENTS / CERTIFICATIONS

Introduction to Programming using Python

- Completed foundational course providing a comprehensive understanding of Python programming fundamentals. Developed proficiency in variables, control structures, functions, and basic input/output operations

SEMINARS / TRAINING / WORKSHOPS

Interactive Data Analytics with Power BI

Feb'24

- Participated in a Power BI workshop focused on data visualization and analysis, gaining hands-on experience in creating dynamic reports and dashboards.
